Electrical Design Technician

Flavourtech is an Australian company, which manufactures high technology process equipment for the food and beverage industries. The company is enjoying substantial success internationally and domestically, selling innovative systems based on its unique Spinning Cone Column and Centritherm Evaporator technology.

Complementing this, Flavourtech's electrical division has established itself as a high quality manufacturer of electrical switchboards and control panels, with a strong focus on quality and meeting customer requirements and expectations.

Flavourtech was recently recognised at the NSW Business Chamber Awards, winning the Excellence in Business category and being nominated as a finalist in the Employer of Choice category, culminating in receiving the 2017 Regional Business of the Year award.

We seek a suitable person to join our electrical design team. Reporting to the Electrical Manager the role entails various aspects of design of electrical systems including:

- Preparation, assembly and submission of budget estimates, tenders and quotations
- Design and specification of electrical systems
- Develop, assemble and keep up to-date electrical documentation including, schematic diagrams, layout drawings, design/equipment specifications, labeling systems and wiring schedules
- Use design computer software efficiently to complete assigned work
- Programming & setup of variable speed drives and instrumentation on plant & equipment
- Assist with the supervision and training of electrician's, apprentices and subcontractors
- Adherence to workplace, Health & Safety site standards

The successful applicant will have the following qualifications and/or experience:

- Electrical Trade certificate
- Current NSW electrical license
- Good working knowledge of current electrical standards and regulations
- The ability to read, interpret and understand engineering drawings (Plans, elevations, sections, P&IDs, electrical schematic diagrams and wiring diagrams)
- As a minimum have a Class 'C' manual drivers license

The successful applicant will:

- Be committed, self motivated and able to operate without direct supervision
- Have the ability to work in a highly motivated and empowering team environment
- Possess experience across a broad range of systems
