

Technologist – Pilot Plant

Flavourtech is an Australian company, which manufactures high technology process equipment for the food and beverage industries. The company is enjoying substantial success internationally, selling innovative systems based on its unique Spinning Cone Column and Centritherm® Evaporator technology.

Flavourtech has been named Regional Business of the Year at the 2017 Murray-Riverina NSW Business Chamber Awards and winner of the Manufacturing Category of the 55th Premier's NSW Export Awards.

We seek a suitable person to join our Research and Development team. Reporting to the R&D Manager the role entails a range of tasks in our laboratory/pilot plant facilities including:

- conducting trials on pilot-scale equipment and performing CIP (Clean-in-Place)
- laboratory testing and analysis of samples using a range of bench-scale equipment
- collation and basic analysis of trial data
- writing trial reports
- assisting in conducting experiments for R&D projects
- other duties as directed

The successful applicant should have the following attributes/qualifications

- Preferably the successful candidate will have a tertiary qualification in science, engineering, or a food processing discipline. However, consideration will also be given to candidates with a sound technical background in laboratory and pilot plant operations and basic knowledge of mathematics/statistics.
- The person must be self motivated, possess strong problem solving skills and be able to effectively manage own time to meet agreed deadlines.
- Be willing to undertake some overseas and domestic travel.
- Computer literate with high level skills in Excel and Word.

A salary package will be negotiated commensurate with qualifications and experience.

The position will be based in the City of Griffith, NSW.

Initial inquires should be directed in writing to our Human Resources Manager at FTHR@flavourtech.com prior to the 16th of November, 2017.
